MUST-X QR CODE

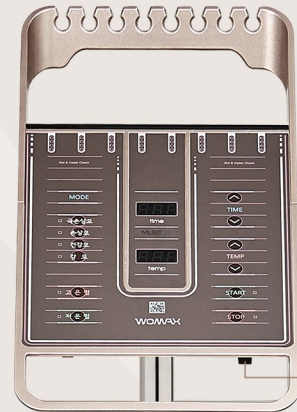

Power cord

Detachable power code

Designed with a detachable power cord, self-repair is more manageable even in the salon.

NEW EVOLUTION

MUST-X

01

High/low-temperature mode (Moisturizing perm/care perm)

- High-temperature perm (Moisturizing perm) – 20°C above the set temperature and reduced time.
- Low-Temperature perm (Care perm) – 10°C below the set temperature and extended time.

02

Nonwoven

Two types of moisture keeper: nonwoven for a moisturizing perm and care perm.

03

Alert lamp (LED) function

LED lights up when rods and cables are in use and alerts when something is wrong with the rods, such as the cables' detachable status or thermal operation on the rods.

04

Various film rods

[Shot 12,14,16,18,20,22,24,26,30 (9 types)] [Ling (4 types)]

Film type heat method, ultra-light, low power consumption, fast and even heat transfer.

05

Design

Maximize the user's visual operability by introducing the control panel board design similar to a luxury vehicle center fascia.
