Round Roll II

Hair processor

The four arch-shaped carbon heaters provide even and firm temperatures to the hair and give customers the highest satisfaction by minimizing hair damage via LED color therapy.

Carbon Heater

The carbon heater with even temperature flow and powerful performance sets temperatures 2 minutes faster due to substantial heat amounts compared to previous heaters.

Uniform Heat System

The four arched carbon heaters warm the entire head equally from the groove to the side and neck.

Compact Smart Panel

A modern and easy to operate panel, featuring user-friendly control: time, temperature, LED ON/OFF setting function

LED Chromotherapy

LED wavelength use prevents discoloration and promoting anti-bacterial, anti-inflammatory effects, blood circulation, penetrative action, color development and elasticity.

Rotary Impact Protection

The heater rotation will stop and reversed on being shocked while operating, reducing the malfunction rate.

Maunal Mode

It has four modes: Perm, Color, Treatment, and Manual, so you can operate it efficiently according to usage method.
